**Linkedin Clone** ✍️  
*React*

A look-alike of the LinkedIn web application having the functionality of login, registration, and posts.

**Space InvaderZ** ✍️  
*Pygame*

This is a game with a moving target that is to be shot. This helped me better understand the appropriate usage of modules in Pygame.

**Snake game** ✍️  
*Pygame*

I created a look-a-like of one of the most well loved games using Pygame module of Python. This was one of my favourite projects.

**Pong** ✍️  
*Pygame*

This is a tennis-like game. As the ball moves, its path gets traced. It involved moving the two paddles so as to hit the ball.
