📁 Projects

Linkedin Clone ⬈
React
A look-alike of the Linkedin web application having the functionality of login, registration, and posts.

Space InvaderZ ⬈
Pygame
This is a game with a moving target that is to be shot. This helped me better understand the appropriate usage of modules in Pygame.

Snake game ⬈
Pygame
I created a look-a-like of one of the most well loved games using Pygame module of Python. This was one of my favourite projects.

Pong ⬈
Pygame
This is a tennis-like game. As the ball moves, its path gets traced. It involved moving the two paddles so as to hit the ball.
